

GEO-1B — HISTORICAL GEOLOGY

About This Course

Transfer: UC, CSU

C-ID: (C-ID:GEOL 111)

4.00 units

Prerequisite: None, **Advisory:** GEO-1 and MAT-35 and ENG-1A.

Description: Examines the geologic history of the earth and the fossil record, emphasizing principles and methods of interpretation.

Special topics discussed are: continental drift, the San Andreas Fault, evolution, extinction, and mountain building. Laboratory includes study of fossils, geologic maps, and methods of interpreting ancient environments. Field trips to local areas of geologic interest may be required. 54 hours lecture and 54 hours laboratory. (Letter grade only)
