

## **NRN-91 — NURSING WORK STUDY (BRN APPROVED)**

---

### **About This Course**

0.50 units

Prerequisite: NRN-2

Description: This nursing work study is designed to correlate instructional theory with related clinical experience. The student will have an opportunity for refinement of previously learned nursing skills and further competency development in clinical practice under the supervision of a registered nurse preceptor at a clinical facility. 27 hours laboratory. (Pass/No Pass only.)
